## 9. Summary of entry:

Designed to serve gas transporters, our CEME Emergency Response service offers unparalleled reliability and readiness to the industry. Our CEME members benefit from access to our comprehensive stock of emergency materials and specialised equipment. Operating 24/7, 365 days a year, our dedicated team stands ready to mobilise swiftly and effectively when faced with an emergency. With strategically positioned engineers and a vast array of equipment at their disposal, we ensure prompt and reliable support when its needed most.

**Specialised Expertise:** Our team possess specialised knowledge and expertise in handling gas-related emergencies, ensuring a safe and effective response.

**Rapid Deployment & Comprehensive Coverage:** With strategically positioned depots we can mobilise quickly to address emergencies, minimizing potential risks and hazards. Proven track record: We have maintained, the Gas Transmission network since 1988, right through to current where we now respond to emergencies on distribution networks and power stations. Responding to circa 25 annual emergencies.

**Commitment to safety:** Above all, CEME prioritises safety in every aspect of its operations, from emergency response procedures to equipment maintenance and personnel training. Winning a safety award would be testament to our unwavering commitment to ensuring the safety and wellbeing of all stakeholders in the gas industry.

---
